PROFILE

Full-Stack Developer with hands-on experience designing and building production-focused web applications using **React.js**, **Next.js**, **Node.js**, **Express.js**, **MongoDB**, and **REST APIs**. Strong understanding of backend workflows, authentication, database design, **Docker**-based deployment, and application architecture, built through self-driven projects with emphasis on security, reliability, and scalability.

EDUCATION

- Bachelor of Technology in Information Technology**
International Institute of Information Technology (IIIT), Bhubaneswar
2023 - Aug 2027
CGPA: 8.70 / 10
- Class XII: ISC Board**
Saint Francis School, B. Deoghar
2020 - 2022
Percentage: 95.25%
- Class X: ICSE Board**
Saint Francis School, B. Deoghar
2020
Percentage: 95.20%

PROJECTS

- Velvet - Secure File Sharing Platform**
Tech Stack: Node.js, React.js, Express.js, MongoDB, Cloudinary, Multer, JWT, bcrypt
 - Built a secure file-sharing platform with **JWT authentication**, protected uploads, and **permission-based public link management**.
 - Implemented **password-protected links**, **expiry timers**, **revocation**, and **atomic download-limit enforcement** for secure file access.
 - Designed **REST APIs** and **MongoDB schemas** for file metadata, ownership, **Cloudinary-backed storage**, and reliable lifecycle handling.
- Eventually - Event Management Platform**
Tech Stack: Node.js, EJS, Express.js, MongoDB, JWT, CSS3
 - Developed an event management platform supporting **event creation**, **student registration**, **cancellation/re-registration**, and **attendance tracking**.
 - Implemented **JWT authentication** and **Role-Based Access Control (RBAC)** to separate Admin and Student workflows.
 - Designed **MongoDB registration workflows** with **compound unique indexes** and **atomic attendance updates** for data consistency.
- Relay - Intra-Campus Peer-to-Peer Marketplace**
Tech Stack: Next.js, JavaScript, Node.js, Express.js, MongoDB, Tailwind CSS, Cloudinary, Multer
 - Built a **campus marketplace** for students to list, discover, and negotiate purchases of used textbooks, electronics, and other items with **secure JWT authentication**.
 - Developed **multi-photo listings**, keyword search, category/price filters, favorites, and **buyer-seller messaging** with 5-second polling.
 - Created a responsive **seller dashboard** for active/sold listings and sales activity, with **Next.js rewrites** proxying API requests to the Express backend.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Libraries & Tools: Java Collections Framework, Docker, Docker Compose, Figma

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS, EJS

Backend: Node.js, Express.js, REST APIs, JWT

Version Control: Git, GitHub

Databases: MySQL, MongoDB

Relevant Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Areas of Interest: Full Stack Development, Backend Engineering

Problem Solving: 300+ LeetCode problems solved in Graphs, Dynamic Programming, Trees, and Sliding Window
